

# **OCT v1.0-stable**

## **Maintenance Manual**

Denis SAUNIER, Romain BOUTIN,  
Thibaud LAMARCHE, William LE COROLER

Mars 09, 2015

Referring professor: Philippe MESEURE

## **Summary**

|                           |   |
|---------------------------|---|
| OCT v1.0-stable.....      | 1 |
| Maintenance Manual.....   | 1 |
| Compilation.....          | 3 |
| Linux compilation:.....   | 3 |
| OSX compilation:.....     | 3 |
| Windows compilation:..... | 3 |

## **Compilation**

### ***Linux compilation:***

In order to compile under Debian or Ubuntu you need to:

- Get the latest version of the project on git.
- Install latest version of qtcreator (libqt >= 5)
- Compile QtAV : [QtAV.pdf](#)
- Import the project and compile QtCreator.

### ***OSX compilation:***

In order to compile under OSX, you need to:

- Get the latest version of the project on git.
- Install latest version of qtcreator (libqt >= 5)
- Compile QtAV : [QtAV.pdf](#)

### ***Windows compilation:***

In order to compile under Windows you need to:

- Get the latest version of the project on git.
- Install latest version of qtcreator (libqt >= 5)
- Compile QtAV : [QtAV.pdf](#)
